PCTI'S HOSA Helps Community with Annual Blood Drive

Wayne, NJ – FOR IMMEDIATE RELEASE – HOSA students of Passaic County Technical Institute (PCTI) partnered up with the Blood Center of New Jersey for the annual blood drive event. By volunteering in numerous ways—acting as donors, registering guests, assisting with patients, and recruiting volunteers from across the school—students ensured the event was a complete success!

One hundred and seventy-one individuals donated blood, ninety of which were first time donors. In addition, twenty-five staff and students registered with the Icla da Silva Foundation, Inc., a “Be the Match” partner registry which recruits potential bone marrow donors.
